### PLEASE NOTE WINTER SEASON:

**Note that the bush camps and camping are located in the river bed. Most often in winter, with exception, the river level can rise during heavy rains. This only happens when heavy rain falls in the Cape Winelands regions at once (Du Toitskloof, Worcester, Ceres and Robertson areas – average twice a year). Should this affect your stay, we will try to move you to units that have not been affected. If this is not possible, we will keep your deposit as a credit for the next 6 months' use. Limited availability in high season.**

**Please note: Our days can be very beautiful in winter, but the nights usually get very cold. Suggest you bring extra blankets and warm clothes.**
